DETAILED ACTION

Allowable Subject Matter

Claims 22, 38, 60-62, 64-68 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant successfully orally argued on Sept.6, 2007 that claim 22 was not anticipated by Ohkouchi et al because Ohkouchi did not teach nor suggest implementing a method including the limitations of claim 1 in combination with forming a III-V alloy semiconductor comprises at least Ga, In, N, and As. Ohkouchi failed to teach nor suggest the inclusion of indium in such a process. Moreover, Applicant successfully argued that prior art failed to teach nor suggest the limitations of claim 64 in combination with using a horizontal type MOCVD apparatus as recited therein. Applicant's oral arguments were found persuasive to the Examiner and the rejection was subsequently withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
